

Greenbank Eco-Congregation Strategic Plan 2024-28

Action Plan 2024

| Rank | Strategic Plan Action |
|------|---|
| | Campaigns |
| 1 | Promote local, national and international campaigns for climate change, biodiversity loss and sustainability. |
| | Develop policy and practice in support of positive initiatives linking national concerns to what we can do locally. |
| | Church Building |
| 1 | Increase the areas of motion-activated lights. |
| | Carry out an annual inspection of church buildings and grounds and consider options for reducing their environmental impact. |
| | For future roof works, explore the possibility of integrated solar panels. |
| | Greening the Church Frontage |
| 2 | Green the church frontage, including new planters and pollinator planting. |
| | Church Collaboration |
| 3 | Collaborate with other cluster churches by reaching out for eco-matters – supporting each other to discuss issues and take practical action. |
| | Repair/Recycle |
| 3 | Promote and support local repair initiatives and host periodic social events. |
| | Support recycling and congregation collections, extending as opportunities arise. |
| | Engagement/Awareness |
| 4 | Involve younger members and young people in a range of eco-discussions and activities. |
| | Develop a calendar of topics for Connections, reflecting the seasons, events and new themes. |
| | Care for Creation |
| 5 | Support the Minister with an inclusive (especially young people) programme of indoor and outdoor worship and study group elements with Care for Creation. |
