

Paper Angel

Use thick paper, not card. It is easier to cut and manipulate.

Draw three circles. The middle one will be the head, the next one will be the arms, and the outer is both wings and skirt.

Cut as shown->

Note the two half slits to divide the outer circle into wings and skirt.

Twist the paper round to slot the skirt into the two slits.

The fun part is decorating. Making the head bigger lets you style the hair by making curls and the wings can be cut into various shapes.
